

The Rose of Hope Committee - and the passionate, visionary ladies of the Cataraqi Golf and Country Club, behind it - has made a real, impactful difference in the lives of women in our region for 25 years. This year, the Rose of Hope is celebrating our 26th year of supporting access to quality health care that our community has relied on, and to ensure programs and services are here when our community needs them the most!

The commitment to improving the diagnosis and care for those with breast cancer, and contributions of over \$3.1 million dollars, has allowed Kingston Health Sciences Centre (KHSC) to purchase and replace essential diagnostic equipment, along with the creation of a comprehensive reconstructive surgery program.

Now, the Rose of Hope committee has made our biggest pledge ever – *one million dollars* toward the purchase of an MRI machine for the KHSC Breast Imaging Centre (BIK). The new centre is open, and it is spectacular! The Rose of Hope Wall pays tribute to the Cataraqi Golf & Country Club members and our friends who have so generously supported us for the past 25 years. When the MRI is installed, the Breast Imaging Centre will be complete and *the best in the country*.

As a healthcare supporter, you can help the Rose of Hope committee achieve this goal. Your ongoing support is vital to giving women and their families the bright, healthy futures they deserve.

With my best wishes for you and the people close to you,

Sherri McCullough
Rose of Hope, Chair
